## The Environmental Assessment Act, 1975

MNR-23

### Exemption Section 30

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The activities of interim management, rehabilitation operations, maintenance, inventory and survey work associated with the Copeland Forest Resources Management Area,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. Interruption to interim management activities on the property would prevent the Ministry of Natural Resources from providing for controlled public access to the area and instituting environmental protection measures, which will not only prevent immediate public enjoyment of the area, but may also result in environmental damage. Such damage might reduce alternatives to be considered in a future master plan for the area.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking is of an interim nature only and represents a series of activities aimed at preserving area resources and ensuring that environmental protection and resource management practices are instituted while inventories are being conducted. These inventories will provide information to be used in the development of a master plan for the area.
2. The implementation of the master plan for the area will be subject to the Act.
3. The activities comprising the undertaking, which are described in material filed by the Ministry of Natural Resources in connection with the request for this order, will not compromise future management options.
4. Some of the activities comprising the undertaking are already exempt from the Act under Section 4 of Ontario Regulation 836/76 as operations and maintenance. Some others are activities which are temporarily exempt and for which the Ministry of Natural Resources is preparing class environmental assessments. Upon approval of the undertakings covered by these assessments, such activities will be required to be carried out in accordance with such approvals.
5. Certain activities will serve to remove risks to public safety.

This exemption order is subject to the following terms and conditions:

1. Notice of all projects and any supporting documentation pertaining to this undertaking, including the material referred to in reason 3, shall be made available to the public at the MNR District Office in Midhurst, Ontario and a copy of such documentation sent to the Environmental Approvals Branch of the Ministry of the Environment to be kept with records of Environmental Assessments and made available to the public in the same manner as such records.
2. The Ministry of Natural Resources shall, before implementing any new activity which is not described in the material referred to in reason 3, notify the Environmental Approvals Branch of the Ministry of the Environment to enable a determination to be made as to whether the new activity should remain part of the undertaking exempt under this order.
3. This exemption expires on the earlier of December 31, 1981, by which time an approved master plan for the area is to be in place, or the date on which the master plan is approved under the Act.

4. Where the implementation of this undertaking requires that some activity, for which an environmental assessment has been carried out and an approval to proceed received, be conducted, that activity shall be carried out in accordance with the environmental assessment and approval to proceed.

This order comes into force and has effect on and after the date upon which it is approved by the Lieutenant Governor in Council.

HARRY PARROTT, D.D.S.  
Minister of the Environment.

Approved by:  
O.C. No. 2855/79

Dated at Toronto, this 24th day of October, 1979.

## The Ontario Highway Transport Board Act

### — POLICY STATEMENT —

November 19, 1979.

**ITEM:**

Expanded Use of Section 8 Proceedings.

**OBJECTIVES:**

To reduce the number of hearings required in unopposed applications and to improve the scheduling process.

**COMMENT:**

The Board advertised a proposal in THE ONTARIO GAZETTE June 2, 1979 outlining its thinking on expanding the use of Section 8 of Regulation 632 under *The Ontario Highway Transport Board Act*. A public meeting was held June 4, 1979 to receive public comment on the proposal. Written submissions were requested by July 31, 1979. This policy statement is the result of this process.

"Section 8" provides that if a notice is placed in THE ONTARIO GAZETTE and no opposition to that application is received within fifteen (15) days of the date it is published, the Board may dispose of the matter summarily.

The Board has for many years advertised particular types of applications under Section 8, and disposed of these in Chambers.

The procedure has generally been utilized in situations where it appeared to the Board that a need was apparent and the application would not generate opposition and where there was no apparent reason such as fitness of the applicant, to hold a public hearing. Examples of matters which are normally disposed of under Section 8 are:

- P.V. (School Bus) applications.
- Some applications for reinstatement of operating licences up to September 30th, in the year of expiry.
- In transit moves.
- Class 'E', change of producers for and on behalf of the Milk Marketing Board.
- Transfers of shares or operating licences involving less than one million dollars.
- Other miscellaneous matters of a normally "routine" nature.

**STATEMENT:**

The Board will advertise all applications except for Class 'R' P.C.V. operating authority under Section 8, but will extend the principle of dealing with matters in Chambers only to Class 'D' applications at this time. (The Board will continue to deal with school bus applications, transfers, reinstatements, etc. in Chambers as outlined above).

The following will apply to applications to be advertised on or after December 1st:

- Applicants may be requested to clarify the terms of their applications before publication.
- Applicants may also be required to file documentation with respect to the proposed application (e.g.'s, agreements of purchase and sale, school contracts, etc.).
- When the application is in acceptable form for publication and required documentation is filed, it will be advertised under Section 8 thereby giving public notice without setting a time and place for the hearing.
- To assist the Board in scheduling, applicants will be requested to inform the Board on the following:
  - length of time required to present applicant's case,
  - number of witnesses expected to be called,
  - suggested dates for the hearing.

This will be done in the case of an application requiring a public hearing, at the time of advertisement; and in the case of an application which might under this policy be disposed of in Chambers, upon receipt of opposition.

*Matters Requiring a Hearing*

A hearing will be scheduled upon notice to the parties without further advertisement. The regular scheduling meetings held each Thursday at 4.00 p.m. in Hearing Room No. 1 will continue.

*Matters That May be Resolved in Chambers*

To proceed with any matter in Chambers, the Board will require evidence in support of the application such as sworn affidavits from shippers attesting to the need and convenience of the service, an outline of why, in the applicant's view the service is necessary and convenient and/or general statement of intent by the applicant.

The following procedure will apply:

- In Class 'D' applications the applicant may file such supporting evidence at the time of making the application or at the expiry of the 29 day period. If the latter course is taken, applicants are encouraged to prepare this material during the advertising period, to expedite final disposition.
- For other matters disposed of in Chambers, such evidence is normally required by the Board prior to advertisement.
- If within a time specified such evidence is not forthcoming or the evidence presented is not suf-

ficient, the Board will set the matter down for a public hearing, upon notice to the applicant.

If there is no opposition and satisfactory evidence is filed, the Board would grant the application summarily and advise the applicant as a matter of course.

The Board intends to extend its use of in-Chambers decisions to other types of applications as experience is gained on the basis of this initial step.

The Board may utilize its power to assess costs to discourage frivolous applications or opposition.

It should be noted that Section 8 notice does not guarantee disposition without a hearing or a grant of the authority applied for.

B. B. ALEXANDER,  
Chairman.

## The Environmental Assessment Act, 1975

MOH-1

### Exemption Section 30

Having received a request from the Minister of Housing that an undertaking, namely:

The acquisition of lands in the Parkway Belt West Planning Area shown on Maps 2, 3, 4, 5, 6, 7 and 8 of the Parkway Belt West Plan, dated July, 1978, as:

1. Utility,
2. Inter-urban Transit,
3. Public Open Space and Buffer Area,
4. Dorval Way between Highway 403 and 401,
5. Highway 403 — Queen Elizabeth Way Link between Highway 403 and Highway 401, and
6. The Controlled Access Arterial Road between Cawthra Road and Renforth Drive, and

Those contiguous lands in common ownership with lands described in paragraphs 1, 2, 3, 4, 5 and 6, above, the acquisition of which the owner does not object to;

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be interfered with and damaged by the undue delay required to prepare environmental assessments for an undertaking which has been subjected to extensive government and public review, and
2. The public will be interfered with and damaged by the undue delay in implementing the Plan, which may be the result of the application of the Act.

Having weighed such damage and interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the Environment, which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order, subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The Parkway Belt West Plan has been approved following:
  - (a) the publication of Government Policy for the Parkway Belt West, in June of 1973,
  - (b) consultation with advisory committees of representatives of municipalities, the people of the Parkway Belt Planning Area and interested groups and agencies pursuant to *The Ontario Planning and Development Act, 1973*,
  - (c) the publication of the Interim Draft Parkway Belt West Plan in May of 1975,
  - (d) separate consultation with the municipalities within the Planning Area pursuant to *The Ontario Planning and Development Act, 1973*,
  - (e) the publication of The Parkway Belt West Draft Plan in January, 1976,

(f) extensive public hearings which began in May, 1976 and continued for approximately seven months involving 240 individual submissions along with 529 exhibits,

(g) the publication of The Report of the Hearing Officers, in February of 1977,

(h) the public Submission of the Treasurer of Ontario to the Lieutenant Governor in Council, of October, 1977, and

(i) the approval by the Lieutenant Governor in Council of the Treasurer's Submission, with modifications, upon consideration of recommendations and representations made by various persons, and

2. The implementation of individual projects within the Planning Area cannot proceed until the requirements of the Act have been complied with either by the submission and acceptance of an environmental assessment, and the subsequent approval of the undertaking, or by the receipt of an exemption order under Section 30 of the Act.

This exemption is subject to the following terms and conditions:

1. The acquisition of lands outside the Parkway Belt West Planning Area shall not be exempt by this order where the interim land management for the lands will substantially change the use of the lands which existed prior to the date of purchase;
2. The present use of a site acquired pursuant to this order within the Planning Area may not be changed before the proposed new use has been brought into compliance with the Act, and
3. The maintenance of lands as vacant lands or buildings shall be deemed not to be a substantial change of use referred to in condition 1, nor a change of use referred to in condition 2.

This order comes into force and has effect on and after the date upon which it is approved by the Lieutenant Governor in Council.

HARRY PARROTT D.D.S.,  
Minister of the Environment.

Approved by  
O.C. No. 2931/79

Dated the 31st day of October, 1979.

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant Governor doth thank Her Majesty's dutiful and loyal subjects, accept their benevolence and assent to this Bill in Her Majesty's name".

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

*Mr. Speaker and Members of the Legislative Assembly:*

The close of this Third Session of the Thirty-first Parliament of Ontario also marks the end of a decade. As a Province, Ontario has made great strides throughout the 1970s, despite certain economic difficulties which few countries have escaped in recent years. As a nation, the '70s have brought us to the edge of one of the most critical moments in our history, as Quebec determines its future within Canada.

Today, as at the start of the decade, Ontario continues its unflagging efforts to promote the cause of "Canada first", in policies which the Government feels are important to the nation as a whole.

Significantly, the Government can cite from the early '70s the positive actions which stemmed from the work of the Select Committee on Economic and Cultural Nationalism, appointed by this Legislature. Again, in Ontario's stand on energy pricing, consistently held since the mid-decade, the interests of the nation have remained paramount. But among the most vigorous manifestations of this approach is the recent rejection of the "sovereignty-association" proposal of the Government of Quebec.

In looking ahead to the 1980s, my Government reaffirms its belief in the ultimate wisdom of its philosophy, which takes as given that the future will be better if shared by all Canadians working in harmony, one with another.

At the same time, looking back on this Session, the record shows a substantial number of achievements which reflect a deep sense of duty and commitment to the interests of the people of Ontario on the part of all Members of this House.

Unfortunately, in 1979, nature was not always kind to certain areas of Ontario. In the first part of the year, ice storms and flooding made emergency assistance and special funding arrangements necessary in ten areas of the province. Similar assistance was also provided as a result of the severe tornado damage in Oxford and Brant Counties in August.

Last month, what could have become an overwhelming disaster in the City of Mississauga was averted by the dedicated service of the men and women who work in our fire, police, hospital and related services, and by the highly laudable sense of order exhibited by the quarter of a million citizens directly affected.

The plight of the "Boat People" and of refugees in Southeast Asia has been of enormous concern to the Government and people of Ontario, who have assisted, both in relocation and settlement of several thousand individuals and families in the province, as well as in providing emergency relief, through the Canadian Red Cross, for thousands more in refugee camps in the Far East.

The observance of 1979 as the International Year of the Child was marked in numerous ways throughout the province. Within the government, the Children's Services legislation package, which received Royal Assent last year, was proclaimed in June. The legislation covers amendments to almost all areas of social service to children, and includes provisions governing child abuse, adoption procedures and day-care services—all of which have the singular aim of serving the best interests of children.

Special attention has been paid to the health of young children through a highly successful immunization

campaign against communicable diseases. Of equal, if not greater, significance, is the fact that, by expanding the provincial screening program for newborns to include detection of hypothyroidism, about thirty babies who would almost certainly have been mentally retarded now have a good chance for healthy, normal lives.

Already, preparations are under way to observe 1981 as the International Year of the Handicapped, with governments and organizations developing initiatives that respond to the needs and desires of handicapped citizens.

One recent major initiative of this Government was the creation of a province-wide program of subsidies to municipalities to provide transportation facilities for the physically handicapped. The program, which began on July 1st, follows on experimental services run in five cities over the previous two to three years. The pilot projects, themselves, are now permanent programs.

The new Residential Tenancies Act has been proclaimed, with the exception of certain sections which are the basis of a constitutional reference to the Court of Appeal. Under the Act, the residential premises rent review program is continued throughout the province in a form that will simplify and improve the process for landlords and tenants.

Major legal reforms have been the hallmark of the Ontario justice system over the past several years, and 1979 has been no exception. A new Provincial Offences Act sets out a code of procedures for the prosecution of provincial offences, as distinct from offences under the Criminal Code of Canada. Where past rigidities may often have appeared to be less than just, the built-in flexibility of this new legislation is likely to attract greater respect from the public at large, by relating penalties for minor offences more closely to the nature of the offence.

At the same time, greater responsibility is being asked of Ontario's drivers, who are now obliged by law to carry a minimum of \$100,000 in third party liability insurance on all motor vehicles. This is the main purpose of The Compulsory Automobile Insurance Act, which took effect on December 1st, and which also provides for the formation of an insurance industry pool to ensure that high-risk drivers have access to coverage.

The Evidence Act has been amended to permit the use of the official translation of statutes in French-language court proceedings. This measure follows on the Government's undertaking to prepare official translations of 150 selected statutes over the next four years, for which task a special legal translation unit has been set up in the Ministry of the Attorney General.

Ontario's economy has, by any reasonable standard, fared well in the 1970s and Ontarians have been spared the undue hardship that might have occurred without the timely adoption of a program of restraint in government spending that began in the middle of the decade. Nevertheless, it is the Government's continu-

ing endeavour to temper the obvious limitations required by fiscal restraint with an ever-present awareness of the needs of our citizens and of the community as a whole.

Municipal governments can look forward in 1980 to an average increase in provincial grants of over ten per cent.

In addition, unorganized communities may now make use of a special mechanism to facilitate the provision of such basic services as fire protection, water supply and street lighting. Through The Local Services Boards Act, residents and property owners in these communities may create corporate boards with powers to provide these services. This legislation will be particularly useful in communities in Northern Ontario.

Ontario's budgetary policies paid high dividends last year in terms of the creation of over 130,000 jobs in the province, all of them in the private sector. Projections run to about 140,000 new jobs for the current year.

Efforts to create jobs for young people also produced better results this year, with the Ontario Youth Employment Program providing over 40,000 jobs in the private sector over a six-month period. Government wage-subsidy costs for this program will run to about \$26 million.

A seven-member advisory council on equal employment opportunities for women was formed in March. The Ministry of Labour is relying on the joint cooperation of high-level labour/management representation on this body to provide invaluable assistance in securing better prospects for women in the workplace.

More than twenty Small Business Development Corporations have been registered since the announcement of this new incentive program in the Ontario Budget last April. The program is helping to stimulate private sector investment where it is most needed—in manufacturing and processing, tourism and mineral exploration—by encouraging equity investment in Ontario-based small businesses.

In other Budget measures aimed at stimulating investment, succession duties and gift taxes have been abolished in Ontario.

The Government has taken up the challenge to ensure that the opportunities facing our manufacturing sector and the accompanying demand for skilled labour are met. The Province has promoted the formation of Community Industrial Training Committees under the Employer-Sponsored Training Program.

The Employment Development Fund, established in the spring, is securing the development and expansion of manufacturing enterprises that will create long-term employment. The Fund is also being used as the source of needed incentives to the pulp and paper industry, whose modernization, it is widely agreed, is imperative, both in productive and in environmental terms.

At the same time, Ontario must capitalize on the tariff advantages gained at the Tokyo round of GATT negotiations which were concluded this summer, and make necessary adjustments where the rules are less in our favour. In its consultations with Ottawa, the Province has persistently underlined the key role required of the Federal Government in this area, if markets are to be maintained and, indeed, enhanced, both at home and abroad.

In the constant, watchful concern of government and the public about the quality of our environment, the problem of acid rain has become a major area of focus. Intensified research programs are being carried out, involving the monitoring and analysis of effects on fish and other aquatic life. Some of this research funding is being made available from proceeds of The Provincial Lottery.

The studies also underline the basic goals and objectives for water quality and management in Ontario, which were published earlier in the year. The Government's policies, as set out in this document, have been updated according to newest scientific developments and criteria established in the international Great Lakes Water Quality Agreement.

The negative effects of increasing energy costs on the economy and the question of security of supplies are a source of concern to the Government. While Ontario has had a good record in energy management and conservation over the past several years, there must be a resolve—by our institutions, industries and by individual citizens—to do much more. This resolve is our strongest weapon against any possibility of inconvenience or hardship.

Honourable Members, the scope of these issues, and your efforts in addressing them, speak well of the loyalty you bear to this Province and to the wider interests of our nation. Ontarians can look back on the 1970s with a feeling that our people have made much progress. But, more important, we look to the new decade with optimism, because we know we have the required abilities, resources and resilience to serve our highest aspirations.

On behalf of the people of Ontario, I thank you especially for your endeavours and accomplishments during this Session. May I wish you the joys of the season and a safe and happy holiday among your families and friends.

I now declare the Session prorogued.

In our Sovereign's name, I thank you.

The Government House Leader then said:—

*Mr. Speaker and Members of the Legislative Assembly:*

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

7.30 p.m.

Clerk of the Legislative Assembly  
of Ontario.
